Heavy Snows in Rocky Mountain Country.

RAILROADS ARE TIED UP

Twenty-Five Below Zero—Small Towns Suffer—Reports From Different Points.

DENVER, Feb. 1.—The mercury fell 49 degrees between 6 o'clock last night and 6 o'clock to-night. At the latter hour it stood 4 degrees below zero and was still falling. It was predicted by officials of the Weather Bureau that 20 and possibly 25 degrees below zero would be reached before morning. Telegraphic advices announce extreme cold throughout the Northwest. At Buffalo, Wyo., and at points in Montana, 20 degrees below was reported at 4 o'clock.

The snow blockade in the mountains continues. No trains have been run yet over the Leadville end of the South Park line and some other roads are tied up.

A special to the News from Como, Col., says: The rotary made an attempt to reach Breckenridge this morning, but broke down about two miles this side of Boreas pass summit and was compelled to return to Como for repairs. Another attempt will be made at 3 a. m. to-morrow. Considerable trouble is expected, as the snowsheds are half full of snow. No trains arrived from Alma, Gunnison or the "High line" to-day. The road is open to Denver.

A special from Breckenridge says supplies are getting very low, especially feed for stock. The coal supply is short in many of the small towns.

ST. PAUL (Minn.), Feb. 1.—The mercury here is 4 below zero and at Winnipeg 22 below. All Northwestern weather stations report below zero. It has been snowing four days in Montana, and almost every range is covered with from one to two and a half feet of snow. Although it has turned colder, being 20 below at Helena, the cattlemen do not anticipate any heavy loss in consequence. All sheep-growers and many cattlemen in Montana are better supplied with feed this winter than usual. Throughout Montana the trains are from five to twelve hours late on account of the snow. Reports from all over the State indicate unprecedented cold weather, in some places the thermometer registering as low as 45 below.

OMAHA (Neb.), Feb. 1.—Another cold wave struck Nebraska to-day. At midnight the mercury here was 4 below, with indications of going lower before morning. The temperature fell ten degrees in three hours this afternoon. There were a stiff northwest wind and snow flurries.

CHICAGO, Feb. 1.—The cold wave has moderated somewhat in the Central States, but another cold wave has appeared in the Northwest, where it has caused an additional fall in temperature. Williston, N. D., reports 30 degrees below zero. Exceptionally cold weather prevails in nearly all sections of the country.

BUFFALO (Wyo.), Feb. 1.—Mrs. J. E. Yost, wife of a ranchman, and her daughter, were frozen to death in yesterday's storm. They had started to drive to their home, six miles from town, and became bewildered in the storm. Finally their sleigh overturned, the horse broke away and the two women were left to perish in the cold. The losses of sheep and cattle will be large.

PITTSBURG (Pa.), Feb. 1.—The mercury to-day dropped to zero in this city, while in the surrounding towns it registered from five to thirteen below. At Vandegrift James Fryer was found frozen to death. He had fallen and broken his leg and died before he could reach home. The Monongahela river is frozen over from Pittsburgh to the head waters and the Allegheny is closed above Sharpsburg.

BUTTE (Mont.), Feb. 1.—The cold spell, which seemed to have reached its climax last night, still continues and at 6 o'clock to-night the thermometer is again down to 15 degrees below zero, and before morning will break last night's record, when it was 22 degrees below in the city and 30 below in South Butte. All trains are from five to twelve hours late on account of great amount of snow.

Reports from all over the State indicate unprecedented cold weather, some places the thermometer registering 45 degrees below zero. Stock is suffering greatly and several cases of persons lost in the storm are reported, but so far no fatalities are known.

PORTLAND (Or.), Feb. 1.—The weather to-night in this city and vicinity is the coldest of the winter, the thermometer having reached ten degrees above zero. Several inches of snow have fallen west of the Cascade mountains.

MILES ON BEEF

Tells of Embalmed and Canned Article.

Statements Based on Thirty Reports—Has Affidavits—Chemicals Used—Some Results.

NEW YORK, Jan. 31.—General Nelson A. Miles gave out a statement to-night, after denying several published interviews attributed to him. He prefaced his statement by saying:

"I have been most freely quoted without authority from me or without any utterance on my part. It has been a source of great annoyance to me." His statement is as follows: "On the 20th of last September I issued an order to regimental commanders to report to me concerning the beef which had been issued to their men. At the time I went before the War Investigating Commission I had only received reports from fourteen of the commanders. Now I have thirty reports. They all tell the same story.

"The evidence proves the truth of the statements I have made. In addition to the report of the regimental commanders, I have a great mass of evidence consisting of communications, affidavits, etc., from officers, soldiers and civilians. Every part of the country has contributed to the mass of correspondence which I have received in reference to the beef served to our soldiers and the evidence is all corroborative of what I have said. The great publicity, which the press has given to the matter has brought all the correspondence of which I speak upon me.

"I have overwhelming evidence that the embalmed beef was treated with chemicals in order to preserve it. I have affidavits from men who saw the beef undergoing the treatment or embalming process.

"Now, as to the canned roast beef, that was different from embalmed beef. The canned roast beef was the beef after the extract had been boiled out of it. You have seen the advertisements 'beef extract; one pound contains the substance of from four to five pounds of prime beef.' Well, this is the beef after the extract has been taken from it. They put this beef pulp up in cans and label it 'Canned Roast Beef.' The soldiers report that the canned beef was nauseating. If swallowed it cannot be kept on the stomach."

COSTLIEST BICYCLE

The costliest bicycle in the world has just been finished at a gun factory in Vienna. It will cost a little more than \$275,000. The owner is a South African diamond king who will present the machine to his wife on the next anniversary of her birthday. The frame alone cost 1,800 guineas, and at the Vienna Exposition it was admired by thousands. The South African nabob was so struck with the exquisite beauty of the wheel that he bought it and had it inlaid with precious stones.
